

Instruction manual

Delivery includes

- e 825 S
- MZQ 800 microphone clamp
- pouch
- quick guide
- safety guide

Product overview

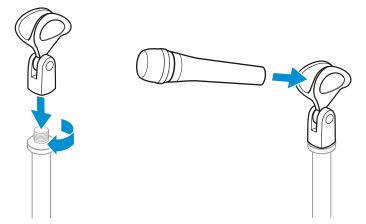

- 1. Sound inlet basket
- 2. XLR-3 connector
- 3. On/off switch
- 4. Screw

Installation

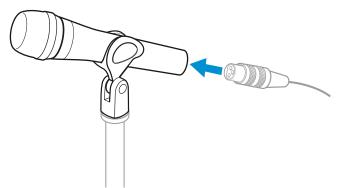

Attaching the microphone

- \triangleright Screw the microphone clamp to a stand.
- \triangleright Place the microphone with its back end into the microphone clamp.
- $\,\triangleright\,\,$ Orient the microphone together with the microphone clamp.

Connecting the microphone

Connect the XLR-3 socket of the microphone cable (optional accessories) to the XLR-3 socket of the microphone.

Using the windshield

▷ Place the MZW 4032 (optional accessories) windshield over the microphone head.

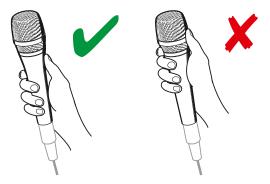

Operation

Holding the microphone

If you cover the microphone head during transmission, this will change the pick-up pattern of the microphone and consequently the sound.

 \triangleright Only hold the microphone by its body.

Positioning the microphone

 \triangleright It is vital to observe the following notes:

Position	Resulting sound	Commentary
A	High proximity effect (large bass boost) Powerful, direct sound	Very little crosstalk from other sound sources
В	Less proximity effect (less bass boost) Some room ambience, natural, balanced sound	More crosstalk from other sound sources
С	Very little proximity effect (minimal bass boost) More room ambience, indirect sound	Higher crosstalk from other sound sources

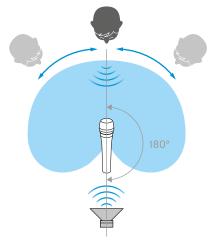

If sibilance occurs:

▷ Position the microphone slightly to the side and not directly in front of the mouth.

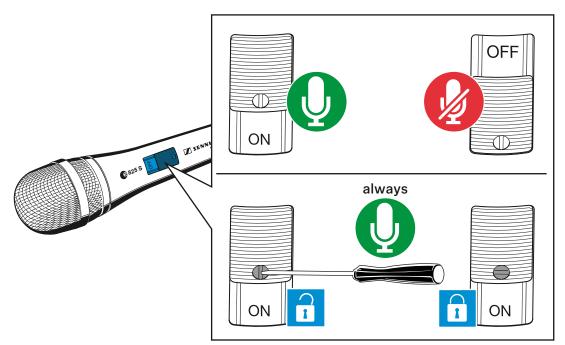

Positioning the monitor loudspeakers

▷ To prevent feedback and crosstalk, postion your monitor loudspeakers in the angle area of the highest cancellation of the microphone (approx. 180°).

Switching the e 825 S on/off

- $\,\triangleright\,\,$ Use the on/off switch to switch the the e 825 S on or off.
- $\,\triangleright\,\,$ If necessary, use the screw to lock the on/off switch in the "on" position.

Cleaning and maintaining the e 825 S

CAUTION

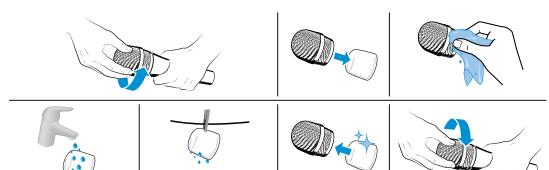

LIQUIDS CAN DAMAGE THE ELECTRONICS OF THE PRODUCT!

Liquids entering the housing of the product can cause a short-circuit and damage the electronics.

- ▷ Keep all liquids away from the product.
- \triangleright Do not use any solvents or cleansing agents.
- Disconnect the products from the power supply system and remove rechargeable batteries and batteries before you begin cleaning.
- \triangleright Clean all products only with a soft, dry cloth.

Cleaning the sound inlet basket of the microphone module

- $\,\triangleright\,\,$ Unscrew the sound inlet basket.
- $\,\triangleright\,\,$ Remove the foam insert from the sound inlet basket.
- \triangleright Use a slightly damp cloth to clean the sound inlet basket from the inside and ouside.
- ▷ If necessary, clean the foam insert with a mild detergent or replace the foam insert.
- \triangleright Dry the foam insert.
- \triangleright Reinsert the foam insert.
- \triangleright Replace the sound inlet basket on the microphone head and screw it tight.

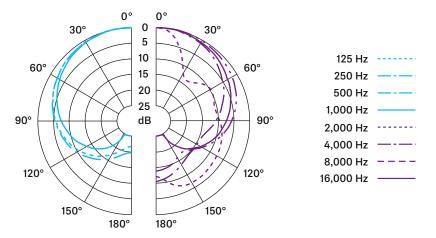

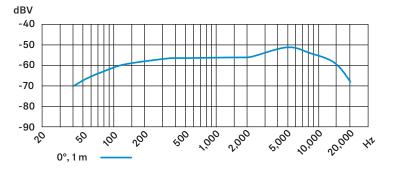

Specifications

Transducer principle	dynamic							
Frequency response	80 - 15,000 Hz							
Pick-up pattern	cardioid							
Sensitivity (free field, no load)	1,5 mV/Pa							
Nominal impedance (at 1 kHz)	350 Ω							
Min. terminating impedance	1 kΩ							
Connector	XLR-3							
Temperature range	0 °C to +40 °C							
Dimensions	Ø 48 x 180 mm							
Weight	330 g							

Polar pattern

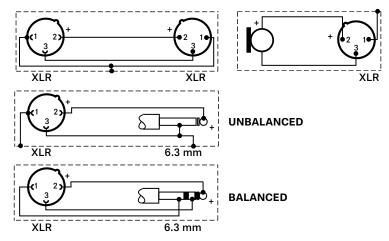

Frequency response

Connector assignment
